IGF

Uganda Internet Governance Forum

Recap of 2014 Uganda Internet Governance Forum

August 11, 2015

Lillian Nalwoga @ UIGF 2015

IGF

Uganda Internet Governance Forum

About the Uganda Internet Governance Forum

The UIGF seeks:

- Establish IG issues relevant to the Uganda;
- Build a consensus on national and regional positions around relevant IG issues and
- Create awareness about various IG issues including online safety in Uganda especially among vulnerable users.

IGF

Uganda Internet Governance Forum

Key areas discussed:

- Improving access
- IANA transition
- IPv6 adoption
- ccTLD management
- Cyber security management

IGF
Uganda Internet Governance Forum

Recommendations

- Development of relevant local content online in local languages
- Addressing child online protection
- Data protection and privacy
- Capacity building in internet governance to allow for more participation in discussions shaping the internet at the local, regional and international level.
